EUROPEAN CERTIFICATES AND ACCREDITATION FOR EUROPEAN PROJECTS

EU-CERT

The Goals and Objectives of EU-CERT

Dear Students, Educators, and Adult Education Providers,

In our previous newsletter, we introduced the EU-CERT project and its significance in enhancing the quality of adult education across Europe. Today, we will delve into the primary goals and objectives that drive this initiative.

Goals and Objectives

The core aim of EU-CERT is to define, design, and implement European criteria for ERASMUS+ project accreditation. By developing a stable and sustainable accreditation structure, we intend to ensure that the results and outputs of adult education projects, such as courses, modules, curricula, and training programs, meet high standards of quality and transparency

Promoting Quality and
Transparency

EU-CERT fosters the participation of European adult educators in a high-quality network with ensured standards. An accreditation system for adult education projects will promote the ERASMUS+ vision, offering greater visibility and transparency for education resources across Europe. This system will also provide seniors and European citizens with access to excellent adult education resources, further supporting quality assurance in the field.

Creating a High-Quality Education Network

Our ultimate goal is to develop an accreditation system that will continue to function effectively and sustainably beyond the duration of the EU-CERT project. This system will serve as a vital tool for stakeholders, helping them understand, value, and recognize learning outcomes and qualifications across the Union.

Sustainable Impact
